Fertilizer Research **40:** 251–253, 1995.

CONTENTS Volume 40 1995

Volume 40 No. 1

Investigation into manganese deficiency in mature oil palms (*E. guineensis*) in Malaysia 1–6
K.K. Kee, K.J. Goh, P.S. Chew

Influence of continuous fertilization to a maize-wheat system on the changes in soil fertility 7–19
H. Singh, K.N. Sharma, B.S. Arora

Ability of a dynamic model of phosphorus to account for observed patterns of response in a series of phosphate fertilizer trials on pasture 21–29
A.G. Sinclair, P.D. Johnstone

Influence of phosphate on cadmium adsorption by soils 31–40
L.M. Xiong

Nitrogen fixation of and N transfer from cowpea, mungbean and groundnut when intercropped with maize 41–48
R. Senaratne, N.D.L. Liyanage, R.J. Soper

Comparison of a single and coastal superphosphate for subterranean clover on phosphorus leaching soils 49–61
M.D.A. Bolland, M.F. Clarke, F.C. Boetel

Effect of potassic and phosphatic fertilizer type, fertilizer Cd concentration and zinc rate on cadmium uptake by potatoes 63–70
M.J. McLaughlin, N.A. Maier, K. Freeman, K.G. Tiller, C.M.J. Williams, M.K. Smart

The effect of nitrogen fertilizer use and other practices on methane emission from flooded rice 71–84
K. Minami

Volume 40 No. 2

Response of tomato to nitrogen fertilization and irrigation frequencies in a semi-arid tropical soil 85–88
P.O. Nwadukwe, V.O. Chude

Impact on ammonia volatilization losses of mixing KCl of high pH with urea 89–92
C.B. Christianson, G. Carmona, M.O. Klein, R.G. Howard

Dissolution of phosphate rock during the composting of poultry manure: an incubation experiment 93–104
S. Mahimairaja, N.S. Bolan, M.J. Hedley

Coupling of dry matter and nitrogen accumulation in ryegrass 105–108
A.R. Overman, D.L. Robinson, S.R. Wilkinson

Phosphate availability in calcareous Vertisols and Inceptisols in relation to fertilizer type and soil properties 109–119
B. Castro, J. Torrent

Influence of continuous cropping and fertilization on adsorption and desorption of soil phosphorus 121–128
K.N. Sharma, H. Singh, A.C. Vig

Effect of citrate and tartrate on phosphate adsorption by amorphous ferric hydroxide 129–134
C. Dye

Agricultural response functions for limited resource farmers in Sub-Saharan Africa 135–141
P.-J. Kouka, C.M. Jolly, J. Henao

Assessing nitrogen mineralization from soil organic matter using anion exchange membranes 143–148
P. Qian, J.J. Schoenau

Human urine – Chemical composition and fertilizer use efficiency 149–154
H. Kirchmann, S. Pettersson

The effect of increasing application rate of granular calcium ammonium nitrate on net nitrification in a laboratory study of grassland soils 155–161
C.J. Watson, D.J. Kilpatrick, J.E. Cooper

Announcement – Acid Reign '95? 163

Volume 40 No. 3

Land application of poultry litter and water quality in Oklahoma, U.S.A. 165–173
G.C. Heathman, A.N. Sharpley, S.J. Smith, J.S. Robinson

Assessing risk associated with N fertilizer recommendations in the absence of soil tests 175–183
H.J. Barreto, M.A. Bell

Adsorbed phosphorus partitioning in some benchmark soils from Northeast Brazil 185–191
J.O. Agbenin

Effects of application of cement kiln-exhaust on selected soil physico-chemical and biological properties 193–196
V.C. Saralabai, M. Vivekanandan

Estimating ammonia volatilization from unsaturated urea fertilized and urine affected soils by an indirect method 197–205
R.R. Sherlock, J.R. Freney, P.E. Bacon, T.J. van der Weerden

Effect of soil pH on the requirement for water-soluble phosphorus in triple superphosphate fertilizers 207–214
G.L. Mullins, F.J. Sikora

Nitrogen utilization by lowland rice as affected by fertilization with urea and green manure 215–223
M.M. Panda, A.R. Mosier, S.K. Mohanty, S.P. Chakravorti, A.B. Chalam, M.D. Reddy

Effect of urease, nitrification and algal inhibitors on ammonia loss and grain yield of flooded rice in Thailand 225–233
J.R. Freney, D.G. Keerthisinghe, S. Phongpan, P. Chaiwanakupt, K.J. Harrington

Pterocarpus angolensis D.C.: field survival strategies, growth, root pruning and fertilization in the nursery 235–242
E. Munyanziza, R.A.A. Oldeman

Biomass and nutrient uptake of _Ailanthus excelsa_ as effected by N and P fertilization on an aridisol 243–250
G.N. Gupta

Volume contents 251–253

Author index 255

Instructions to authors 257–258
